

Overtones – The Harmony of Nature

harmonic singing workshop Sat, 9th of May 2015

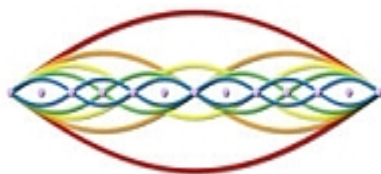

Singer and Vocal Coach Miroslav Grosser shows you easy and direct ways to produce the amazing sound of harmonics in your own voice. He provides several relaxing techniques to prepare the voice for overtones and will show you the connection between voice and personality, between sound and consciousness, through learning how to sing the natural scale of a single tone. After the workshop we sing together with instruments, so bring yours with you, if you like... No education in singing/music is required

A very warm welcome for your unique voice!

Nada Yoga – The Yoga of Sound

vocal workshop for every soul Sun, 10th of May 2015

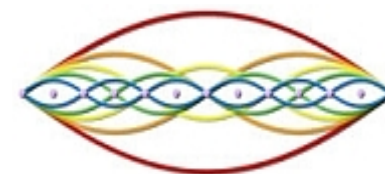

Nada Yoga is a way to use sound as a medium for transformation of body, mind and soul. With traditional vocal yoga exercises and modern shamanic methods you can learn how to combine the power of sound with the awareness of your mind to open the consciousness for altered states and new perceptions of the truth of life. So you can come into deep contact with the vibrational essence of life and your own inner being to create harmony between yourself and the world.

You are warmly welcomed to attend, with or without any previous yoga experience!
